

Introducing the Verifone V^x 670!

Whether you own one restaurant or one thousand, TeaMac, Inc. provides a VeriFone high-quality system solution to help you optimize your time and increase your profits, all while giving your customers more ways to pay – at the table, in the car, on the doorstep, and at the counter.

Features and Benefits of the VeriFone V^x 670:

Save Costs and Increase Profit

- ✓ Save on interchange rates by accepting PIN debit cards
- ✓ Accept electronic payments at the table, car, or delivery site for a competitive differentiator

Improve Operational Efficiencies

- ✓ Eliminate time-consuming pre-authorizations and tip adjustments
- ✓ Turn tables faster since server makes one trip to the table or car for payment

Provide Better Customer Service

- ✓ Give customers the security they want because their card doesn't leave their sight
- ✓ Preset tip percentage choices to increase tip potential and relieve customers from having to do the math
- ✓ Provide multiple payment options for customers, including debit

Give your customers a new way to pay that is fast, secure, and reliable with the next innovation in payment processing technology from VeriFone.

Set up an appointment with **Deb Young** of **TeaMac, Inc.** to see the terminal in action and to learn about the details.
