

510 DC Landline Unit

Designed to deliver unequalled performance and an unprecedented level of flexibility, smart and stylish, the 510 DC relies on a lightning fast processor and built-in thermal printer to handle credit and debit payments. The 510 DC provides built-in support for an option that combines dial-up and Ethernet connectivity, so you can start with dial-up now and add high-speed broadband later. Bold menu prompts and familiar ATM-style interface make the device exceptionally easy to use. PCI PED approval and stringent security safeguards deliver welcome peace of mind.
